PROJECTS**

Thank you for bringing hope!

Dear Ralph Voigts and Voigts Group team,

Thank you so much for your generous donation of topsoil for Unakekelo crèche, and a day's worth of TLB work! This means that there will be grass for the children to play on—as well as getting us started on our food garden, which will provide nutritious food to these young children.

As you can see in the photo—before your donation it was not a great area for children to play. Thank you for helping us turn this crèche into a more “kid friendly” area, so the kids can start playing and learning early next year.

Seeing crèches and ECD centres in Sweetwaters become places of child-centred development is our passion, and we're so thankful for your support of our work!

*Kind Regards,
The iThemba team*
